To the Chief Executive Department for Education

Opinion

I have audited the financial report of the Department for Education and the consolidated entity comprising the Department for Education and its controlled entities for the financial year ended 30 June 2021.

In my opinion, the accompanying financial report gives a true and fair view of the financial position of the Department for Education and the consolidated entity as at 30 June 2021, its financial performance and its cash flows for year then ended in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards.

The financial report comprises:

- a Statement of Comprehensive Income for the year ended 30 June 2021
- a Statement of Financial Position as at 30 June 2021
- a Statement of Changes in Equity for the year ended 30 June 2021
- a Statement of Cash Flows for the year ended 30 June 2021
- notes, comprising significant accounting policies and other explanatory information
- a Statement of Administered Comprehensive Income for the year ended 30 June 2021
- a Statement of Administered Financial Position as at 30 June 2021
- a Statement of Administered Changes in Equity for the year ended 30 June 2021
- a Statement of Administered Cash Flows for the year ended 30 June 2021
- notes, comprising significant accounting policies and other explanatory information for administered items
- a Certificate from the Chief Executive and the Chief Financial Officer.

Basis for opinion

I conducted the audit in accordance with the *Public Finance and Audit Act 1987* and Australian Auditing Standards. My responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial report' section of my report. I am independent of the Department for Education and its controlled entities. The *Public Finance and Audit Act 1987* establishes the independence of the Auditor-General. In conducting the audit, the relevant ethical requirements of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* have been met.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Responsibilities of the Chief Executive for the financial report

The Chief Executive is responsible for the preparation of the financial report that gives a true and fair view in accordance with relevant Treasurer's Instructions issued under the provisions of the *Public Finance and Audit Act 1987* and Australian Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of the financial report that gives a true and fair view and that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Chief Executive is responsible for assessing the Department for Education and its controlled entities ability to continue as a going concern, taking into account any policy or funding decisions the government has made which affect the continued existence of the entity. The Chief Executive is also responsible for disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the assessment indicates that it is not appropriate.

Auditor's responsibilities for the audit of the financial report

As required by section 31(1)(b) of the *Public Finance and Audit Act 1987*, I have audited the financial report of the Department for Education and the consolidated entity for the financial year ended 30 June 2021.

My objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Department for Education's internal
 control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Chief Executive
- conclude on the appropriateness of the Chief Executive's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify the opinion. My conclusion is based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern
- evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

My report refers only to the financial report described above and does not provide assurance over the integrity of electronic publication by the entity on any website nor does it provide an opinion on other information which may have been hyperlinked to/from the report.

I communicate with the Chief Executive about, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during the audit.

1. About the Department for Education

The Department for Education (the department) is a government department of the state of South Australia. The department is established pursuant to the *Public Sector Act 2009* as an administrative unit acting on behalf of the Crown.

The financial statements and accompanying notes include all the controlled activities of the department (refer to the disaggregated schedule for details of the department's controlled activities).

Transactions and balances relating to administered resources are not recognised as departmental income, expenses, assets and liabilities. As administered items are significant in relation to the department's overall financial performance and position, they are disclosed in the administered financial statements which follows the controlled general purpose financial statements. Except as otherwise disclosed, administered items are accounted for on the same basis and using the same accounting policies as for departmental items.

Transactions within Department columns

The values in the Department columns in the financial statements incorporate the activities of the corporate department. Corporate department activities include transactions that relate to the operations of government controlled schools and preschools including:

- · expenses such as salaries and wages, salary related on-costs and some utilities expenses
- infrastructure assets including land, buildings and major improvements
- liabilities recorded in the corporate department's financial systems such as employee benefits.

Income earned and expenses incurred directly by government controlled schools and preschools are accounted for locally in their general ledgers and excluded from the Department column.

Transactions within Consolidated column

The values in the Consolidated columns in the financial statements incorporate the activities of the corporate department as discussed above and government controlled schools and their respective governing councils. All material transactions between the corporate department and government controlled schools have been eliminated as required by Australian Accounting Standards.

Financial data was collected from government schools and their respective governing councils for the school year ended 31 December 2020 for the purpose of consolidating it with data from the corporate department. Where material, adjustments have been made to the consolidated figures to take into account the effect of schools and their respective governing councils having a different reporting period to the corporate department.

Income earned and expenses incurred directly by government controlled preschools which are accounted for locally in their general ledgers are excluded from the Consolidated column as these are deemed immaterial.

1 About the Department for Education (continued)

Administered items

The department is responsible for the administration of specific funds. The department does not have control over how these funds are to be spent and operates in the capacity as an agent responsible for the administration of the transfer process to third parties. The Administered Financial Statements include the income, expenses, assets and liabilities of these funds.

The main administered funds are:

- Ministers salaries
- Ministers payments
- Advocacy bodies
- Family Day Care

For further information refer to note A1.2.

1.1. Basis of preparation

The financial statements are general purpose financial statements prepared in compliance with:

- section 23 of the Public Finance and Audit Act 1987 (PFAA);
- Treasurer's Instructions and Accounting Policy Statements issued by the Treasurer under the Public Finance and Audit Act 1987; and
- Relevant Australian Accounting Standards.

For the purpose of preparing the Financial Statements, the department is a not-for-profit entity.

The financial statements are prepared based on a 12 month reporting period and presented in Australian currency. The historical cost convention is used unless a different measurement basis is specifically disclosed in the note associated with the item measured.

Income, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods or services is not recoverable from the Australian Taxation Office (ATO), in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item applicable; and
- receivables and payables, which are stated with the amount of GST included.

Assets and liabilities that are to be sold, consumed or realised as part of the normal operating cycle have been classified as current assets or current liabilities. All other assets and liabilities are classified as non-current.

1.2. Objectives and programs

Purpose

The Department for Education provides a range of integrated education, training and child development services to benefit children, young people and families. These services improve education and developmental outcomes for children through to transition to adulthood, reflecting the commitment to building a stronger future for children and young people by making the South Australian education system world-class.

School and preschool education is at the core of the department and it recognises that the success of South Australian government schools and preschools depends on mutually-beneficial partnerships with parents and families, community, tertiary providers, industry, government and non-government organisations. The department also has a role in the oversight of TAFE SA and strategic engagement and collaboration with higher education providers.

The department's other important functions are the provision of wellbeing services, working in collaboration with the Department of Human Services and the Women's and Children's Health Network.

Programs

In achieving its objectives, the department provides a range of services classified into the following programs:

Early Childhood Development

The department is responsible for delivering early childhood education, wellbeing and some care services for children and their families. The department recognises the important role of parents in their child's development and provides a combination of universal services and targeted interventions to achieve improved outcomes.

The provision of high quality early childhood education, multidisciplinary interventions and targeted family support programs provide a strong basis to support each child to reach their potential.

School Education

The department seeks to create a stronger future for South Australia by providing students with high quality education through world-class schools and systems.

The department is responsible for delivering primary and secondary public education to enable children and young people to achieve their best and to equip them with the skills and capabilities they will need throughout their lives.

The department maintains high expectations of leaders, principals and teachers to improve student growth and achievement. It drives outcomes by providing evidence-based support and advice focusing on learning, school improvement, instructional leadership, system support and effective accountability. These are enhanced and progressed within the School Improvement Model, which aims to provide differentiated and tailored strategies to assist schools at all levels of performance.

The tables on the following pages present expenses, income, assets and liabilities attributable to each program.

1.3. Impact of COVID-19 pandemic on the Department

The COVID-19 pandemic has impacted on the operations of the department and the impacts are included under the relevant disclosure notes. The key impacts in 2020-21 were:

- Continued cleaning costs for additional cleaning of schools and preschools, including daily cleaning of playground equipment, education offices and various locations where cleaning is considered necessary (see note 4.1).
- Cleaning consumables for hand sanitisers and cleaning products (see note 4.1).

1.4. Budget performance

The budget performance table compares the consolidated entity outcomes against budget information presented to Parliament (2020-21 Budget Paper 4). The budget amounts have not been adjusted to reflect revised budgets or administrative restructures. The budget process is not subject to audit.

Appropriation

Appropriations are recognised on receipt.

This table does not show appropriations in the form of a loan or an equity contribution. Where money has been appropriated in the form of an equity contribution, the Treasurer has acquired a financial interest in the net assets of the department and the appropriation is recorded as contributed equity. Refer to the Statement of Changes in Equity.

The original amount appropriated to the department under the annual Appropriation Act was \$3 billion and no additional funds were received from the Treasurer via the Governor's Appropriation Fund.

Commonwealth sourced grants and funding are recognised in accordance with AASB 1058 as income on receipt.

Obligations under Commonwealth sourced grants and funding are required to be met by the state of South Australia. For accounting purposes, the obligations under the funding arrangements do not sit with the department unless paid direct to the department.

^{*}These grants were received directly from the Commonwealth by the department, and therefore obligations under the funding arrangements rest with the department representing the state of South Australia's obligations under the grant for accounting purposes.

Volunteers

The department receives volunteer services at schools for assistance across a range of functions. The department recognises these services received free of charge because they form a necessary part of the school's activities. Services of this nature are recognised where they would have otherwise been purchased and fair value can be determined reliably. A corresponding expense is also recognised, but is not required to be disclosed as a separate line item.

Goods received free of charge

Goods received free of charge in 2020-21 includes the land and buildings for Snowtown Kindergarten, Barmera Kindergarten and the Northbridge Kindergarten sites that transferred to the Minister for Education.

The number of executive officers disclosed in the above table includes employees appointed on a South Australian Executive Service (SAES) contract as at 30 June 2021 and 30 June 2020 respectively and who have earned the base remuneration during the year. The numbers of executive officers separately disclosed are also included in the number of employee totals for 2021 and 2020.

The table includes all employees who received remuneration equal to or greater than the base remuneration level during the year. Remuneration of these employees reflect all costs of employment including salary and wages, payments in lieu of leave, termination payments, employer's superannuation contributions, salary sacrifice benefits, fringe benefits and any fringe benefits tax paid or payable in respect of these benefits.

Remuneration received or due and receivable by the above employees was \$102.2 million (2020: \$85.4 million), which is included in employee benefits expenses.

² Includes resigned and retired executives not included in the executive column.

| Total employee benefits | 768 765 | 734 026 | 761 960 | 727 839 |

Employee benefits accrue as a result of services provided up to the reporting date that remain unpaid. Long-term employee benefits are measured at present value and short-term employee benefits are measured at nominal amounts.

Salaries and wages, annual leave, country incentive leave, skills and experience retention leave (SERL) and sick leave

The liability for salary and wages is measured as the amount unpaid at the reporting date at remuneration rates current at reporting date.

The annual leave liability, country incentive leave and the SERL liability are expected to be payable within 12 months and are measured at the undiscounted amount expected to be paid.

No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees is estimated to be less than the annual entitlement for sick leave.

Long service leave

The liability for long service leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. Details about the measurement of long service leave liability is provided as note 10.1.

Accommodation

Most of the department's accommodation is provided by the Department for Infrastructure and Transport under Memoranda of Administrative Arrangement (MoAA) issued in accordance with Government-wide accommodation policies. These arrangements do not meet the definition of lease set out in AASB 16.

Operating lease payments

Operating lease payments (less any lease incentives) are recognised on a straight-line basis over the lease term. Operating Lease payments include rental agreements that do not meet the definition of a lease as per AASB 16.

Operating leases includes short term and low value leases.

Short term hire for vehicles

The department uses short term hire for vehicles which are shown above in vehicle and travelling expenses.

All non-current assets having a limited useful life are systematically depreciated/amortised over their useful lives in a manner that reflects the consumption of their service potential.

Land and non-current assets held for sale are not depreciated.

Useful Life

Depreciation/amortisation is calculated on a straight-line basis over the estimated useful life of the following classes of assets as follows:

| Class of asset | Useful life (years) |
|--|---------------------|
| Buildings and improvements | 3-170 |
| Leasehold improvements | 5-43 |
| Buses and motor vehicles | 12-20 |

| Intangible assets | 5-30 |
| Other assets | 5-10 |

for the year ended 30 June 2021

4.3. Depreciation and amortisation (continued)

Review of accounting estimates

Assets' residual values, useful lives and depreciation/amortisation methods are reviewed and adjusted if appropriate on an annual basis. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for prospectively by changing the time period or method, as appropriate.

5.1 Property, plant and equipment by asset class (continued)

Property, plant and equipment owned by the department with a value equal to or in excess of \$5 000 is capitalised, otherwise it is expensed.

Property, plant and equipment owned by the department is recorded at fair value. Detail about the department's approach to fair value is set out in Note 10.2.

The construction work in progress includes \$213.3 million for two birth-to-year 12 schools being constructed under a Public Private Partnership (PPP) agreement delivered under the SA Schools Public Private Partnership Project. Further details about this agreement is provided in note 9.1.

Impairment

The department holds its property, plant and equipment and intangible assets for their service potential (value in use).

All non-current tangible assets are valued at fair value.

The department also expects for all other non-current tangible assets that any costs of disposal will be negligible and the recoverable amount will be close to or greater than fair value.

Land, buildings and improvements for 3 (2020: 3) disused sites were written down to their fair value less cost of disposal. An impairment loss of \$1 million (2020: \$4.4 million) was recognised. The valuations were provided by independent certified practising valuers and were based on observable market data.

There were no other indications of impairment of property, plant and equipment as at 30 June 2021.

Revaluation of property, plant and equipment is undertaken on a regular cycle as detailed in Note 10.2. If at any time management considers that the carrying amount of an asset materially differs from its fair value, then the asset will be revalued regardless of when the last valuation took place.

| Total right of use assets | 179 364 | 184 042 | 177 335 | 181 534 |

Right of use assets are recorded at cost. On transition to AASB 16 all right of use assets which have been revalued are deemed to be recorded at cost and APS 16F requires the revaluation model not to be adopted.

Right of use buildings for the Education Works New Schools Public Private Partnership lease were revalued prior to transition. The independent valuation of buildings for Education Works New Schools Public Private Partnership lease was performed as at 30 June 2017 by Fred Taormina, B.App.Sc. (Val), A.A.P.I. Certified Practicing Valuer of Valcorp Australia Pty Ltd. The valuer adopted depreciated replacement cost when valuing the buildings due to there not being an active market for purchasing such buildings. The depreciated replacement cost considered the need for ongoing provision of government services, the specialised nature of the assets including the restricted use of the assets, size, condition, location and current use of the asset. The valuation was based on the cost data from construction manuals and projects costs of buildings recently erected.

Short-term leases of 12 months or less and low value leases where the underlying asset value is less than \$15,000 are not recognised as right of use assets. The associated lease payments are recognised as an expense and are disclosed in note 4.1.

The department has a number of leases:

- 616 motor vehicle leases with the South Australian Government Financing Authority (SAFA). Motor vehicle leases are non-cancellable, with rental payments monthly in arrears. Motor vehicle lease terms range from 3 years (60,000km) up to 5 years (100,000km).
- The department has 17 property leases that are non-cancellable. Remaining property lease terms range from 4 years to 22 years.
- Schools have 7 leases that are non-cancellable. The remaining lease terms range from 1 year to 15 years.
- Education Works New Schools Public Private Partnership lease relates to the design and construction of six schools. Refer to note 5.4 for service right for use of equipment and note 9.1 for expenditure commitments.

The lease liabilities related to the right of use assets are disclosed in note 7.2. The department's maturity analysis of its lease liabilities is disclosed in note 10.3. Expenses related to leases, including depreciation and interest expenses, are disclosed in note 4. Cash outflows related to leases are disclosed in note 8.2.

Intangible assets are initially measured at cost and are tested for indications of impairment at each reporting date. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The acquisition of internally developed software is capitalised only when the expenditure meets the definition and recognition criteria and when the amount of expenditure is greater than or equal to \$5 000.

The internally developed computer software relates to the department's human resource management system (Valeo).

The service right to use equipment relates to the provision, maintenance and replacement of equipment under the Education Works New Schools agreement. The service right is amortised over the remaining period of the agreement. The Education Works New Schools agreement has been detailed in note 9.1.

Impairment

There were no indications of impairment of intangible assets as at 30 June 2021.

The department has measured the non-current assets held for sale at fair value less costs to sell because the assets' fair value less costs to sell is lower than its carrying amount. Detail about the department's approach to fair value is set out in note 10.2.

for the year ended 30 June 2021

5.6. Non-current assets classified as held for sale (continued)

As a result of school and preschool closures and amalgamations, the land and buildings located at these sites are surplus to requirements. It is anticipated the land and buildings will be sold within the next 12 months.

Buses that have reached the end of their useful lives and are no longer economically viable are held for sale at auction.

Special deposit accounts are established under Section 8 and 21 of the Public Finance and Audit Act 1987. Special deposit accounts must be used in accordance with their approved purpose.

Some of the department's appropriation is deposited into the Accrual Appropriation Excess Funds Account. Although the department controls the money reported above in the Accrual Appropriation Excess Funds Account, its use must be approved by the Treasurer.

The department does not earn interest on its deposits with the Treasurer.

SA School Investment Fund (SASIF)

Represents the amount held in schools SASIF accounts at 31 December 2020, adjusted to account for additional grant revenue and other material movements that occurred between the school's calendar year and the department's financial year.

The physical amount held in schools and units SASIF accounts as at 30 June 2021 was \$499.4 million (2020: \$453 million) and does not include \$53.6 million (2020: \$44.8 million) held in the account for preschools and some units as these have been treated as transactions with third parties.

Fees, charges and other receivables arise in the normal course of selling goods and services to other government agencies and to the public. Fees, charges and other receivables are normally settled within 30 days after the issue of an invoice or the goods/services have been provided under a contractual arrangement. Receivables, prepayments and accrued revenues are non-interest bearing. Receivables are held with the objective of collecting the contractual cash flows and they are measured at amortised cost.

Other than as recognised in the allowance for impairment loss on receivables, it is not anticipated that counterparties will fail to discharge their obligations. The carrying amount of receivables approximates net fair value due to being receivable on demand. There is no concentration of credit risk.

Refer to note 10.3 for further information on risk management.

Statutory receivables do not arise from contracts with customers. They are recognised and measured similarly to contractual receivables (except impairment) but are not classified as financial instruments for disclosure purposes.

The net amount of GST recoverable from the ATO is included as part of receivables.

Receivables, prepayments and accrued revenues are non-interest bearing. Receivables are held with the objective of collecting the contractual cash flows and they are measured at amortised cost.

| Total payables | 249 027 | 185 993 | 275 788 | 218 443 |

Creditors and accruals are raised for all amounts owing but unpaid. Creditors are normally settled within 30 days from the date the invoice is first received. The carrying amount of creditors represents fair value due to their short-term nature.

Statutory payables do not arise from contracts.

The net amount of GST recoverable from the ATO is included as part of receivables. However, if a net GST payable arises then this amount would be disclosed in this Payables note.

Employment on-costs

Employment on-costs include Payroll Tax, ReturntoWorkSA levies and superannuation contributions and are settled when the respective employee benefits that they relate to is discharged.

The department contributes to several state government and externally managed superannuation schemes. These contributions are treated as an expense when they occur. There is no liability for payments to beneficiaries as they have been assumed by the respective superannuation schemes. The only liability outstanding at reporting date relates to any contributions due but not yet paid to the South Australian Superannuation Board and external schemes.

As a result of an actuarial assessment performed by Department of Treasury and Finance, the percentage of long service leave taken has increased to a rate of 65% (2020: 64%) and the average factor for the calculation of employer superannuation increased to a rate of 10.1% (2020: 9.8%). These rates are used in the employment on-cost calculation. The net financial effect of the changes in the current financial year and subsequent years is immaterial.

Accrued interest on PPP lease

Accrued interest on PPP lease relates to the Education Works New Schools Public Private Partnership lease.

8. Other disclosures

8.1. Equity

The revaluation surplus is used to record increments and decrements in the fair value of land, buildings, leasehold improvements and other financial assets to the extent that they offset one another. Relevant amounts are transferred to retained earnings when an asset is derecognised.

The equity contribution was provided to the department under the *Appropriation Act 2019*. The funding relates to an increase in the Accrual Appropriation Excess Funds Account held by the Treasurer.

8.2. Cash flow

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the ATO is classified as part of the operating cash flows.

Total cash outflow for leases was \$25.3 million (2020: \$25.3 million). The cash outflow for leases is for the Consolidated entity only.

In December 2019, the state of South Australia entered into a Project Deed for the delivery of the SA School Private Partnership Project for the finance, design, construction and maintenance of two birth-to-year 12 schools under a Public Private Partnership (PPP) agreement. The Northern School is in the Angle Vale suburb of Adelaide and the Southern School is in the Aldinga suburb of Adelaide. This is referred to as the SA Schools PPP agreement. Both schools are currently under construction, with Construction Work in Progress costs of \$213.2 million recognised in 2020-21. A corresponding finance charge and financial liability has been accounted for in note 4.4 and 7.2 respectively.

9.1 Unrecognised contractual commitments (continued)

Public Private Partnership Agreements

In July 2009 the state of South Australia entered into a 30 year agreement for the delivery of the Education Works New School Private Partnership Project, under the Partnerships SA policy, for the financing, design, construction, and maintenance of six schools. This agreement and the SA Schools Public Private Partnership include the provision of operational and maintenance services by the operator for a specified period of time, and is referred to as a Public Private Partnership.

Under the PPP agreements, the department pays the operator over the period of the arrangement, subject to specified performance criteria being met. These estimated periodic payments relate to the ongoing operation and maintenance of the facilities accounted for as operating costs which are expensed in the Statement of Comprehensive Income.

9.2. Contingent assets and liabilities

Contingent assets and liabilities are not recognised in the Statement of Financial Position, but are disclosed by way of this note and if quantifiable, are measured at nominal value.

The department is not aware of any contingent assets.

The department has undertaken a review of long service leave records and supporting documents and identified that a revision in the long service leave provision may be required for certain employee categories. The department is not able to reliably estimate the total potential amount of the change to the overall liability at the reporting date. Where amounts are able to reliably be identified and measured, they have been recognised as liabilities in line with the measurement and recognition criteria of AASB 137 'Provisions, Contingent Liabilities and Contingent Assets'.

9.3. COVID-19 pandemic outlook for the department

As the situation with COVID-19 evolves, the department continues to plan and operate in accordance with advice from SA Health to support the safety and wellbeing of staff, students and the broader community. It is expected that the cleaning costs and associated cleaning consumables will continue during the pandemic period.

9.4. Events after the reporting period

No events to report after reporting period.

for the year ended 30 June 2021

10. Measurement and risk

10.1. Long service leave and other employee benefit liabilities – measurement

AASB 119 Employee Benefits contains the calculation methodology for long service leave liability.

The actuarial assessment performed by the Department for Treasury and Finance (DTF) has provided the basis for the measurement of long service leave and is based on actuarial assumptions on expected future salary and wage levels, experience of employee departures and periods of service. These assumptions are based on employee data over the education sector across government. Expected future payments are discounted using market yields at the end of the reporting period on government bonds with durations that match, as closely as possible, the estimated future cash outflows.

AASB 119 Employee Benefits requires the use of the yield on long-term Commonwealth Government bonds as the discount rate in the measurement of the long service leave liability. The yield on long term Commonwealth Government bonds increased to 1.0% (2020: 0.50%).

The actuarial assessment performed by DTF left the salary inflation rate at 2.5% (2020: 2.5%) for long service leave liability and 2% (2020: 2%) for annual leave and skills and experience retention leave liability.

The net financial effect of the changes to actuarial assumptions in the current financial year is a decrease in the long service leave liability of \$18.6 million. The impact on future periods is impracticable to estimate as the long service leave liability is calculated using a number of demographical and financial assumptions – including the long-term discount rate.

The impact on annual leave and skills and experience retention leave liabilities was immaterial.

The split for long service leave between current and non-current is based on the departments best estimate of the amount to be paid in the coming year based on actual prior years long service leave taken.

10.2. Fair value

AASB 13 Fair Value Measurement defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants, in the principal or most advantageous market, at measurement date.

Initial recognition

Non-current tangible assets are initially recorded at cost or at the value of any liabilities assumed, plus any incidental costs involved with the acquisition. Non-current assets are subsequently measured at fair value after allowing for accumulated depreciation.

Where assets are acquired at no value or minimal value, they are recorded at fair value in the Statement of Financial Position.

Revaluation of non-current assets

All non-current tangible assets are valued at fair value and revaluation of non-current assets or group of assets is only performed when its fair value at the time of acquisition is greater than \$1.5 million and estimated useful life is greater than three years.

The department revalues its buildings and improvements and leasehold improvements at least every three years. However if at any time, management considers the carrying amount of an asset materially differs from its fair value, then the asset will be revalued regardless of when the last valuation took place. Land is revalued annually if the revaluation is considered to be material in nature.

10.2 Fair value (continued)

Non-current tangible assets that are acquired between revaluations are held at cost until the next valuation where they are revalued to fair value.

Upon disposal or derecognition, any revaluation surplus relating to that asset is transferred to retained earnings.

Impairment of non-current assets

For further information refer to note 5.1.

Fair value hierarchy

The department classifies fair value measurement using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements, based on the data and assumptions used in the most recent valuation.

Level 1: traded in active markets and is based on unadjusted quoted prices in active markets for identical assets or liabilities the entity can access at measurement date.

Level 2: not traded in an active market and are derived from inputs (input other than quoted prices included within level 1) that are observable for the asset either directly or indirectly.

Level 3: not traded in an active market and are derived from unobservable inputs.

The department's policy is to recognise transfers into and out of fair value hierarchy levels as at the end of the reporting period.

During 2021, the department had no valuations categorised into level 1; there were no transfers of assets between level 1 and level 2 fair value hierarchy levels and there were no changes in valuation technique.

Land and buildings

The independent valuation of land was performed by the Valuer-General as at 30 June 2021.

Buildings and improvements are valued at current replacement cost less accumulated depreciation. Current replacement cost information on asset holdings was obtained from the Strategic Asset Management Information System (SAMIS) maintained by the Department for Infrastructure and Transport (DIT). Replacement costs have been established by reference to quantity surveyors' estimates and updated through the application of a relevant building index. The valuations for buildings are current as at 30 June 2021, paved areas are current as at 30 June 2021, and swimming pools are current as at 30 June 2018. The building data excludes landscaping, infrastructure, pergolas, playground equipment, fencing and some paving, sheds and outdoor learning areas because they either cannot be reliably measured or no information is recorded in SAMIS.

Refer to note 5.2 for independent valuation information on right of use buildings.

Leasehold improvements

An independent valuation of one leasehold improvement with the largest written down value was performed by Fred Taormina, B.App.Sc. (Val), A.A.P.I. Certified Practicing Valuer of Valcorp Australia Pty Ltd as at 30 June 2021. The valuer adopted depreciated replacement cost when valuing the asset as quoted prices in an active liquid market were not available. This valuation only resulted in a 10% increase in the value of the written down cost. Therefore based on this outcome the department considers the carrying value of the other leasehold improvements approximates fair value.

for the year ended 30 June 2021

10.2 Fair value (continued)

Buses and motor vehicles

Buses acquired prior to 30 June 2015 are valued based on an internal estimate of current depreciated replacement cost for each bus category based on recent acquisitions, and residual values as at 30 June 2015. New buses from 1 July 2015 are valued at historical cost.

Computing, communications, furniture and equipment

All computing, communications, furniture and equipment and other assets which had a fair value at time of acquisition that was less than \$1.5 million have not been revalued in accordance with APS 116.D. The carrying values of these assets are deemed to approximate fair value. These assets are classified in level 3 as there has been no subsequent adjustment to their fair value, except for management assumptions about condition and remaining useful life.

Non-current assets held for sale

The department has measured land and buildings held for sale at fair value less costs to sell in accordance with AASB 5 Non-current Assets held for Sale and Discontinued Operations because the assets' fair value less costs to sell is lower than its carrying amount. Refer to note 5.6.

for the year ended 30 June 2021

10.2 Fair value (continued)

Reconciliation of level 3 recurring fair value measurements as at 30 June 2021

The following table is a reconciliation of fair value measurements using significant unobservable inputs (level 3).

10.3. Financial instruments

Financial risk management

Risk management is managed by the department and departmental risk management policies are in accordance with the SA Government Risk Management Guide and the principles established in the Australian Standard Risk Management Principles and Guidelines.

The department's exposure to financial risk (liquidity risk, credit risk and market risk) is low due to the nature of the financial instruments held.

Liquidity risk

The department is funded principally from appropriation by the SA Government. The department works with the Department of Treasury and Finance to determine the cash flows associated with its government approved program of work and to ensure funding is provided through the SA Government budgetary processes to meet the expected cash flows.

Refer to note 7.1 and 7.2 for further information.

Credit risk

The department has policies and procedures in place to ensure that transactions occur with customers with appropriate credit history.

No collateral is held as security and no credit enhancements relate to financial assets held by the department.

Impairment of financial assets

Impairment of financial assets is performed using a two step process.

First, an allowance for impairment loss is recognised when there is objective evidence the receivable is impaired. Then the remaining receivables are assessed for loss allowances using the simplified approach in AASB 9.

Loss allowances for receivables are measured at an amount equal to lifetime expected credit loss using the simplified approach in AASB 9. The department uses an allowance matrix to measure the expected credit loss of receivables from non-government debtors which comprise a large number of small balances.

To measure the expected credit losses, receivables are grouped based on shared risk characteristics and the days past due. When estimating expected credit loss, the department considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the department's historical experience and informed credit assessment, including forward-looking information.

The maximum period considered when estimating expected credit losses is the maximum contractual period over which the department is exposed to credit risk.

The expected credit loss of government debtors is considered to be nil based on the external credit ratings and nature of the counterparties.

Loss rates are calculated based on the probability of a receivable progressing through stages to write off based on the common risk characteristics of the transaction and debtor.

10.3. Financial instruments (continued)

The following tables relate to the department's assessment of credit risk. This provides information about the exposure to the expected credit loss for non-government debtors. Credit risk has been assessed at the school level, however information is not collected or obtained from schools to allow for the disclosure of consolidated information.

Table 1. General receivables non-government debtors

\$285 000 was impaired based on objective evidence.

| | Debtor gross | | Lifetime expected |
|----------------------------|--------------------|-------|-------------------|
| | carrying amount Lo | | losses |
| | \$'000 | | \$'000 |
| 2021 | | | |
| Current (not past due) | 579 | 0.19% | 1 |
| 1-30 days past due | 20 | 0.60% | - |
| 31-60 days past due | 115 | 1.49% | 2 |
| 61-90 days past due | 107 | 2.23% | 2 |
| More than 90 days past due | 943 | 2.96% | 28 |
| Loss allowance | | | 33 |

Salary overpayments debtors.

\$1 053 000 was impaired based on objective evidence. There are no expected lifetime losses.

International Education debtors.

\$329 000 was impaired based on objective evidence. There are no expected lifetime losses.

Loss rates are based on actual history of credit loss, these rates have been adjusted to reflect differences between previous economic conditions, current conditions and the department's view of the forecast economic conditions over the expected life of the receivables.

Impairment losses are presented as net impairment losses within net result, subsequent recoveries of amounts previously written off are credited against the same line item.

Receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include the failure of a debtor to enter into a payment plan with the department and a failure to make contractual payments for a period of greater than 90 days past due.

The allowance was recognised when there was objective evidence that a receivable was impaired. The allowance for impairment was recognised in other expenses.

No impairment losses were recognised in relation to contract assets and accrued revenue during the year.

Cash and debt investments

The department considers that its cash and cash equivalents have low credit risk based on the external credit ratings of the counterparties and therefore the expected credit loss is nil.

10.3. Financial instruments (continued)

Market risk

The department does not trade in foreign currency, nor enter into transactions for speculative purposes, nor for hedging.

Exposure to interest rate risk may arise through its interest bearing liabilities, including borrowings. There is no exposure to foreign currency or other price risks.

There have been no changes in risk exposure since the last reporting period.

Categorisation of financial instruments

Details of the significant accounting policies and methods adopted including the criteria for recognition, the basis of measurement, and the basis on which income and expenses are recognised with respect to each class of financial asset, financial liability and equity instrument are disclosed in the respective financial asset/financial liability note.

Classification of financial instruments

The department measures all financial instruments at amortised cost.

The following tables are for the department entity only. Information is not collected or obtained from schools to allow for the disclosure of consolidated information.

Statutory receivables and payables

The receivable and payable amounts disclosed here exclude amounts relating to statutory receivables and payables. This includes Commonwealth, State and Local Government taxes and equivalents, fees and charges; Auditor-General's Department audit fees. This is in addition to employee related payables, such as payroll tax, Fringe Benefits Tax, Pay As You Go Withholding and ReturnToWorkSA levies. In government, certain rights to receive or pay cash may not be contractual but have their source in legislation and therefore, in these situations, the disclosure requirements of AASB 7 will not apply. The standard defines contract as enforceable by law. All amounts recorded are carried at cost.

A1. About the Administered items for the Department for Education

The Department for Education is responsible for the administration of specific funds or bodies on behalf of the Minister for Education. The department does not have control over how these funds are to be spent and operates in the capacity as an agent responsible for the administration of the transfer process to third parties. The Administered Financial Statements include the income, expenses, assets and liabilities of these funds.

A1.1. Basis of preparation

The basis of preparation for the administered financial statements is the same as the basis outlined in the department's note 1.1. The department applies the same accounting policies to the administered financial statements as set out in the notes to the department's financial statements.

A1.2. Administered activities

The main administered funds are:

Ministers salaries

The Minister's salary and allowances are funded by specific legislation and the department has no control over this part of the annual appropriation.

Ministers payments

Funds are appropriated to the Minister for Education and are disbursed at the discretion of the Minister. The principal payments are:

- the State Government contribution to the operation of the South Australia Certificate of Education (SACE) Board of South Australia
- the State and Commonwealth Government contributions to the operation of the Education Standards Board of South Australia
- payments to the Department of Infrastructure and Trade for the purposes of student travel
- payments to Ministerial committees
- the State Government contribution to the operation of non-government schools, some non-government preschools, organisations and services to students with disabilities
- the Commonwealth Government contribution to the operation of non-government schools, organisations and services to students with disabilities
- the State Government contribution to the operation of the History Trust of South Australia, Australian Children's Performing Arts Company (Windmill Theatre Co), and Carclew Youth Arts

Advocacy bodies

Operations of the following advocacy bodies are administered by the department:

- Commissioner for Children and Young People
- Guardian for Children and Young People
- Commissioner for Aboriginal Children and Young People

Family Day Care

The following Commonwealth subsidy is administered by the Department for Education:

Receipts and payments for Commonwealth child care subsidies relating to family day care.

A1.3. Changes to the Administered items for the Department for Education

There were no changes to the Administered items for the department during the 2020-21 financial year.

A1.4. Budget performance

The budget performance table compares the department's administered items outcomes against budget information presented to Parliament (2020-21 Budget Paper 4). The budget amounts have not been adjusted to reflect revised budgets or administrative restructures. The budget process is not subject to audit.

A8. Outlook

A8.1. Unrecognised contractual commitments

Commitments in relation to expenditure commitments contracted for at the reporting date but not recognised as liabilities are payable as follows:

| Expenditure commitments | 2021 | 2020 |
|--|--------|--------|
| | \$'000 | \$'000 |
| Within one year | 209 | 199 |
| Later than one year but not longer than five years | 899 | 873 |
| Later than five years | 493 | 728 |
| Total operating lease commitments | 1 601 | 1 800 |

The expenditure commitments relate to the memoranda of administrative arrangements with the Department of Infrastructure and Transport and for accommodation.

A9. Measurement and risk

A9.1. Long service leave and other employee benefit liabilities – measurement

For further information on the measurement of long service leave and other employee benefits, refer to note 10.1.

A9.2. Fair value

For further information on fair value measurement and recognition, refer to note 10.2.

In 2020 and 2021 all land was classified as level 2 and all buildings, improvements, computing, furniture and equipment were classified as level 3. All recurring fair value measurements are the same as in note A5.1. There are no significant unobservable inputs for level 3 property, plant and equipment.

For the year ended 30 June 2021

A9.3. Financial instruments

Financial risk management

Risk management is managed by the department and departmental risk management policies are in accordance with the SA Government Risk Management Guidelines and the principles established in the Australian Standard Risk Management Principles and Guidelines.

The administered activities exposure to financial risk (liquidity risk, credit risk and market risk) is low due to the nature of the financial instruments held.

Categorisation of financial instruments

Details of the significant accounting policies and methods adopted including the criteria for recognition, the basis of measurement, and the basis on which income and expenses are recognised with respect to each class of financial asset, financial liability and equity instrument are disclosed in the respective financial asset/financial liability note within the departments controlled financial statements.

Classification of financial instruments

The department measures all financial instruments at amortised cost. All financial assets and liabilities have a contractual maturity within one year.
