Dear Ms Sandy

RE Freedom of Information - Determination

I refer to your Freedom of Information application which the Department for Education received on 28 May 2020, seeking access to documents containing the following information about schools:

'Separately for each financial year from 2017 to present, the number of

- 1. Break and enter incidents at schools and the total cost of claims made by schools as a result of break and enter incidents.
- 2. Vandalism/malicious damage incidents at schools and the total costs of claims made by schools as a result of incidents of vandalism/malicious damage.
- 3. Arson incidents at schools, broken down by the number of reported cases and major arson incidents, and the cost of claims made by schools as a result of arson incidents.
- 4. Incidents causing loss or damage at schools that have resulted in claims being made by schools and the total costs of those claims.

Please include related reports, CCTV/video and photos for those incidents that occurred since 1 January, 2019.'

I also refer to email communication with you on 13 July 2020, confirming the scope of your application to be seeking the same document types provided in response to similar previous FOI applications.

I acknowledge receipt of your cheque for \$165.60, received on 13 July 2020, as payment in full.

Searches undertaken in relation to your request have identified four documents. I have determined to release the documents in full.

Please note:

- For the purposes of reporting, the department does not categorise damage or loss caused by students during school operating hours as 'vandalism'. Consequently, this data will not be represented in the attached documents.
- Historically, schools and preschools have not been *required* to report vandalism incidents in order to arrange vandalism repairs. However, sites must report to claim for stolen items. Therefore documents 1 to 3 may not necessarily capture *all* incidents of Crime.
- Documents 1 to 3 titled 'Claim Types Totals' are the same data set as provided previously, titled 'Crime Types – Totals'.
- Since 2018, 'miscellaneous disasters' have also been captured within IRMS. It
 is not possible to separate the miscellaneous disaster information from the
 vandalism information in IRMS.
- Costs are corporately funded. The total costs are captured in document 4.
 - The timing of costs associated with fire remediation do not necessarily correlate with the time of when the incident occurred due to the various processes involved with making claims.
 - Similarly, timing of vandalism/break-ins does not necessarily correlate with the timing of expenditure incurred for those incidents due to the billing processes in place.
- The department has no central storage / access mechanism for CCTV footage.

In accordance with the requirements of Premier and Cabinet Circular PC045, details of your FOI application, a copy of your notice of determination, schedule of documents and the documents to which you are given access, may be published in the agency's disclosure log. A copy of PC045 can be found at http://.dpc.sa.gov.au/what-we-do/services-for-government/premier-and-cabinet-circulars. If you disagree with publication, please advise the undersigned at education.foi@sa.gov.au within 30 days from the date of notice of determination. Should you require further information, please contact Information Release on telephone 8226 3231 or email education.foi@sa.gov.au.

Yours sincerely

Chrissie Argitis

ACCREDITED FREEDOM OF INFORMATION OFFICER
