**Government of South Australia**  
Department for Education

10 April 2026

Dear Mrs Smith

## **Registration of interest for students starting secondary school in 2027**

Our records show that your child, Joe Smith, is due to start secondary school in 2027.

Each year the Department for Education coordinates a state-wide process to assist primary school students' transition into secondary school.

A new online registration of interest form is now available for parents of students starting secondary school in 2027 to complete.

The form is unique to your child and can be found here [Joe Smith enrolment form](#).

You will be required to enter the code **HxAkvfnonU** to use enrolment form.

The form can be accessed from a computer, tablet or mobile phone, as long as you can connect to the internet, and replaces the old paper format used by schools, sometimes referred to as an ED176 form. **It is recommended that you use Chrome as your internet browser to complete this form.**

The online form will allow you to tell the department if:

- you would like your child to attend their local/zoned secondary school (find which secondary school is your local/zoned one at [find a school](#))
- you are interested in your child attending another SA government secondary school/s
- your child does not require a place as they will not be attending a SA government secondary school in 2027.

You must complete and submit the form by **22 May 2026**.

Where appropriate, the link to this unique form has been sent to each person who has legal responsibility for your child. It is important that parents/guardians reach an agreement regarding which secondary school(s) you want to nominate for your child before you complete the form, as only one form can be submitted for each child.

If you need to make changes after the form has been submitted, you will need to contact our office at Statewide Primary School.

All families will be advised of their child's secondary school allocation on or by **7 August 2026**.

You can find more information as to how the transition process works on the [department's website](#) or in the provided parent brochure for students starting secondary school in 2027. If you need guidance on how to complete the online form, please find guidance videos here

- Guidance videos - <https://www.education.sa.gov.au/parents-and-families/enrol-school-or-preschool/school-enrolment/register-your-childs-interest-starting-high-school>

If you are not able to access the online form, or if you need help or have questions about how to complete it, please contact our office at Statewide Primary School for assistance.

Kind regards

Statewide Primary School

Some secondary schools have a selective entry process for enrolment into their specialised program, which is managed by the school. The selective process may have included an examination, performance or audition. The school will inform you directly the outcome of this process during term 2.

The school will send the department a list of who has accepted a place in their specialised school or program. If you have applied to more than one program, list the schools in order of preference on this form.

An acceptance of an offer will not prevent your child from being considered in later offers from other schools where you have applied. In these circumstances the family can choose to either continue with your current offer, or accept the new offer and withdraw your previous acceptance.

There is no automatic entry for future out-of-zone siblings of children chosen by the school to enrol through a selective special interest program.
