## SACE and VET Pathways - $1^{\text {st }}$ release

## Purpose

The purpose of this document is to examine the population patterns for government school students who undertake and complete SACE and/or VET courses, including once they have left the school system.

## Overview

Longitudinal enrolment records held by the department have been combined with VET enrolment data provided by the Department for Innovation and Skills (DIS) to determine VET pathway participation and completion for students who were enrolled in government schools for years 2018 to 2020.

## Statistical matching

A statistical exercise was used to match government school student enrolment data to Department for Innovation and Skills VET enrolment and completion data.

This report does not cover SACE and VET pathways for:

- non-government school students
- fee-for-service VET from private registered training organisations, unless the provider submitted this information to the Department for Innovation and Skills.

A matching success rate of around $87 \%$ was achieved for South Australian government school student enrolment data to VET data.

The figures provide a system overview of SACE and VET pathways and are designed to examine population patterns only. All student and program counts have been rounded to the nearest hundred.

## Key findings

## SACE and VET completion

- For $2020,65 \%$ of year 12 and 13 students completed SACE, when considering VET completion this percentage goes up to $74 \%$ (table 1a).
- The VET/SACE completion rate is expected to increase over time as some students continue to complete SACE or VET in the following years. The VET/SACE completion rate for 2018 students was $68 \%$ in 2018 and increased to $72 \%$ in 2020 (table 1a).
Post-school outcomes 2018 to 2020
- Around 7 out of 10 year 12/13 students from 2018 have either completed their SACE or a known VET qualification by 2020 (table 1a)
- Around 4 out of 5 year 12/13 students from 2018 have either completed their SACE or a known VET qualification, or were still enrolled either in school or a VET qualification in 2020 (table 1b, table 2).
- Almost 3 out of 10 year 11 school leavers in 2018 have either completed their SACE or a known VET qualification by 2020 (table 3)
- Around 4.5 out 10 year 11 school leavers in 2018 have either completed their SACE or a known VET qualification, or were still enrolled either in school or a VET qualification in 2020 (table 3).

Table 1a: Year-on-year SACE and/or VET completion for year 12 and 13 students

| School year | Year 12 and 13 <br> enrolments | SACE/VET completion <br> - to same year |  | SACE/VET completion <br> - to 2020 |  |
| :--- | :--- | ---: | ---: | ---: | ---: |
| 2018 | 12600 | 8600 | $68 \%$ | 9100 |  |
| 2019 | 12100 | 8800 | $72 \%$ | $72 \%$ | 7100 |
| 2020 | 11900 | 8900 | $74 \%^{2}$ | 8900 | $7 \%^{1}$ |

Counts presented have been determined via statistical matching. Please refer to note on statistical matching.
Table 1b: Year-on-year SACE and/or VET completion or enrolment for year 12 and 13 students

| School year | Year 12 and 13 <br> enrolments | SACE/VET completion or enrolment <br> - to same year | SACE/VET completion - to 2020, <br> or enrolment - in 2020 |  |  |

## Notes

1. The student populations used in this factsheet are calculated using different methodologies than those used to calculate data published on data.sa.gov.au and the SACE website. As such, student numbers may not reconcile with those released elsewhere.
2. Student year levels in this factsheet are the minimum administrative year level across the February and mid census for the reporting year.
3. Measures include all students irrespective of whether they are full-time or part-time.
4. Enrolments reported in this factsheet include all students irrespective of age.
5. Year 13 (year 12 plus) is for students who have already spent a year at year 12 and have chosen to undertake further study at year 12 .
6. Students who achieved SACE in a previous year and returned (e.g. to improve their grade for tertiary admission requirements) are excluded from initial cohort counts.
7. VET enrolment and completion includes award programs, certificate I and higher, and non-award programs.
8. Students may complete both SACE and VET and have more than one VET certificate.
9. Previous year VET completion figures may increase when 2020 data is received.
10. International Baccalaureate completions currently comprise a small percentage. These counts have been added to the SACE totals.
11. Percentages may not sum to 100 due to rounding.
12. A senior student that is enrolled in a government school may not have any active SACE subject registrations.

## Section 1: SACE and VET Pathways - year-on-year

Years: 2018, 2019, 2020, shown for comparisons year-on-year
Year levels: 12, 13
How many year 12 and 13 students complete SACE and/or a VET program?

- $74 \%$ of the 2020 year 12/13 students completed SACE or a VET program by 2020 (table 1a).
- Tracking 2018 year 12/13 students show that another $4 \%$ of year $12 / 13$ students will complete SACE/VET within the two years post school (table 1a).
How many year 12 and 13 students complete SACE and/or a VET program or are still on a SACE or VET pathway?
- In $2020,93 \%$ of the year $12 / 13$ students completed SACE or a VET program or had a SACE or VET enrolment in the same year (table 1b).

Table 1a: Year-on-year SACE and/or VET completion for year 12 and 13 students

| School year | Year 12 and 13 <br> enrolments | SACE/VET completion <br> - to same year |  | SACE/VET completion <br> - to 2020 |  |
| :--- | :--- | ---: | ---: | ---: | ---: |
| 2018 | 12600 | 8600 | $68 \%$ | 9100 | $72 \%$ |
| 2019 | 12100 | 8800 | $72 \%$ | 9100 | $75 \%^{3}$ |
| 2020 | 11900 | 8900 | $74 \%^{4}$ | 8900 | $74 \%^{3,4}$ |
| Counts presented have been determined via statistical matching. Please refer to note on statistical matching. |  |  |  |  |  |

## Section 2: SACE and VET Pathways - post-school

Years: 2018 tracked to two years later
Year levels: 10, 11 and 12/13 cohorts, tracked separately
What SACE and VET outcomes have 2018 students achieved up to 2020?

- Year 10, 11 and 12/13 students will achieve different outcomes over the period 2018 to 2020 due to different starting points.
- SACE completion and no VET completion is the most common educational outcome for students $(38-43 \%)$. The second most common outcome is SACE and VET completion (14-20\%). Students with a VET completion and no SACE completion makes up a small proportion ( $7-10 \%$ ) (tables $2 \mathrm{a}, 2 \mathrm{~b}, 2 \mathrm{c}$ ).
- A further group of students will not have a completion but will have an enrolment in SACE or a VET program (7-19\%) (tables 2a,2b,2c).
- $18-24 \%$ of students will have no SACE or VET completion or enrolment (tables $2 \mathrm{a}, 2 \mathrm{~b}, 2 \mathrm{c}$ ).

Table 2a: SACE and VET pathways for 2018 year 12 and 13 students up to two years post-school

|  | 2018 |  | To one year later |  | To two years later |  |

## Section 3: SACE and VET Pathways - post-school, school leavers

Years: 2018 tracked to two years later.
Year levels: 10 and 11 school leavers, tracked separately.
What SACE and VET outcomes have 2018 school leavers achieved up to 2020?

- VET completion and no SACE completion is the most common educational achievement for school leavers (6-21\%) (tables 3a,3b).
- A further group of students will not have a completion but will have an enrolment in SACE or a VET program (16-18\%) (tables 3a,3b).
- The proportion of school leavers with no SACE or VET completion or enrolment forms the majority (56-76\%) (tables 3a,3b).
- A school leaver is defined as someone who was active in the reporting year but not active in the following year and the exit code was: exemption, illness, parenting/carer, employment/seeking employment, private training, suspension/exclusion, unknown, VET, transferred to government school (Exit codes are not validated).

Table 3a: SACE and VET pathways for 2018 year 11 school leavers up to two years post-school

|  | 2018 |  | To one year later |  | To two years later |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| Counts presented have been determined via statistical matching. Please refer to note on statistical matching. |  |  |  |  |  |  |

## Section 4: VET enrolments - snapshot

Years: 2018, 2019, 2020
Year levels: 10, 11, 12 and 13
How many government school students by year level are in a VET program or an apprenticeship?

- In 2020, 10,100, or 1 in 4 , senior school students (years $10,11,12,13$ ) had at least one VET enrolment in the same year. Students with VET enrolments were highest for year 11 students (table 4a).
How many VET enrolments did government school students have by year level and by AQF level?
- In 2020, senior school students (years $10,11,12,13$ ) had around 13,100 VET programs enrolments in the same year. The majority were certificate I and II (table 4b).
What is the most common VET program students enrol in (by 'broad field of education')?
- In 2020, Engineering and Technology had the most program enrolments for senior school students (years $10,11,12,13$ ) (table 4c).

Table 4a: VET student enrolments by school year by year level (VET enrolments in the same year only)

|  |  | Count of students | Apprenticeship enrolments ${ }^{5}$ - in same year |  | Count of students with VET enrolment (inc. apprenticeships) <br> - in same year |  |

## Section 5: VET completions - cumulative

## Years: 2018, 2019, 2020

Year levels: 10, 11, 12 and 13
How many government school students by year level complete a VET program or an apprenticeship?

- In 2020, 5,600, or 1 in 7 senior school students (years $10,11,12,13$ ) had at least one VET completion (table 5a).
How many VET completions did government school students have by year level and by AQF level?
- In 2020, senior school students (years $10,11,12,13$ ) had around 6,500 VET programs completions. The majority were certificate I and II (table 5b).
What is the most common VET program students complete (by 'broad field of education')?
- In 2020, Food, hospitality, and personal services had the most program completions (years $10,11,12,13$ ) (table 5c).

Table 5a: VET student completions by school year by year level (cumulative)
