Issue 12 – Workforce as at June 2023

Prepared by: Workforce Reporting, System Performance Division

The following is a profile of Department for Education employees who were actively employed or on paid leave (unless otherwise stated) as at the last pay day in June 2023.

Source: Data presented in this report is based on the June 2023 Workforce Information Collection prepared for the Office for the Commissioner for Public Sector Employment (OCPSE). A series of adjustments are undertaken in relation to the data to comply with OCPSE reporting rules. Therefore totals may vary from other internal Department for Education publications sourced directly from human resources records.

Notes:

Where the term "other groups" is used within this document specific to school sector employees, this includes relief teachers, hourly paid instructors (HPIs), Education Act negotiated conditions and seconded teachers.

Where the term "other groups" is used within this document specific to preschool sector employees, this includes relief teachers.

"Full time" employees are those who work greater or equal to 0.98 full time equivalent (FTE).

The term "Aboriginal" has been used within this document and refers to all employees who identified as being of Aboriginal and/or Torres Strait Islander descent.

As part of the requirement to ensure confidentiality in departmental reporting, where relevant, the Commissioner for Children and Young People position has been reported as a Public Sector Act appointment.

Permanency rates: If relevant, bus drivers, hourly paid instructors, swimming instructors, temporary relief teachers and other claim paid employees are not included. The workforce on unpaid leave as at 30 June 2023 has been included to give a more inclusive representation of the workforce. Therefore, data provided for this profile may vary from other departmental publications.

More detailed workforce information provided over the last five years is located on the DataSA website at the link below.

Permanency Rates

Permanency relates to the status of the employee, not the appointment the employee is holding. At any point in time a proportion of the permanent workforce will be on leave (paid or unpaid) or have temporarily reduced their fraction of time worked or have been seconded to a non-school site. In these instances, a vacancy may be created and then filled on a temporary basis by another employee. However, the permanent employee still retains the right to permanent employment with the department resulting in the vacancy only being able to be filled on a temporary basis. The overall impact of the permanent workforce taking leave or reducing hours worked is an increase in the temporary workforce to cover many of the vacancies that result.

The impact is illustrated below for the total workforce as well as for each specific cohort.

The number of permanent school and preschool teachers reported is indicative of a record 512 conversions of temporary teachers to ongoing between June 2022 and June 2023 being partially offset by an increase in permanent teachers separating from the department during this period.

N.B the formula will vary depending on the classification profiled
