• Inspirational stuff!! There is no doubt any group of people, regardless of industry or role, would benefit from this kind of presentation, a wonderful mix of creativity, motivation and innovation. . . **The Body Shop** • 'Thought provoking', 'fun', 'the time flew by' and 'a great session of re-learning how to learn'. The learning while doing notion had a positive effect on everyone. For us, the day was a real winner . . . **Bank One, Wisconsin USA** • We were very impressed with Glenn's attention and ability to weave our story into his presentation. We were even more impressed with his presentation. It was meaningful, thought provoking and most of all FUN . . . **HW Services International** • We all really enjoyed our two days. Glenn's very valued input to our team in exposing our talents and the opportunity to socialise together has given a whole different feel to the team. We now all seem to have more to talk to each other about and I know that this small but very noticeable change in the workplace is, and will continue to have a very positive effect on staff morale. . . **Maroondah City Council Victoria** • Thank You for getting us off to a roaring start to the Ernst & Young Management Development Program. The two days were truly inspirational. Glenn presented the material extremely well and there was a nice blend of brain and body activity. Content, process and facilitator were great. I'd find it hard to fault the course in any way. Glenn was excellent, just the right blend of idealistic and pragmatic. Excellent, irreverent, always relevant, huge repertoire of experience and skills and jokes, facts when necessary, more variety than you could shake a stick at and yet consistent. I like the style and personality of Glenn. Two weeks on and I am still utilising new found ideas. I enjoyed the course not only for the content but for the chance of mingling and meeting other E&Y members. Glenn Capelli certainly provided me with an enthusiasm to alter a few ways I interact and best of all I can relate the lessons directly to my career . . . **Ernst & Young** • Thank you for a thought provoking, interesting and entertaining address. It was one of the highlights for the two days. Thank you for your assistance in making this training session a success. . . **Dept. for Community Development** • I have worked with many motivational speakers at a range of conferences, but I have never encountered one as unique as Glenn Capelli. You are without exception a 'one off' . . . well and truly 'out there' on your own. You have a uniquely innovative method which I find very effective. You are able to draw from an audience a response most speakers would dream of, while at the same time deliver your message. In your one hour presentation there was not a moment when my attention was lost, or a moment of boredom. It is a learning experience and I think your audience is very much the richer and better prepared to face their workplace and their personal lives . . . **Ian Leslie, MD** Sobraon Film and Television Production • The presentations you gave were motivational and inspirational, a vibrant and fantastic start to our conference. We received a great response from delegates about your presentation, many were inspired and came out of the sessions with a new outlook on life. . . **Aust. Cemeteries Crematoria Association.**
